

## DM Lite Kit Electronic Drumset with Portable Folding Rack

### Instant Drums for the Aspiring Musician

The Alesis DM Lite Kit with light-up LED pads will have any novice or accomplished drummer playing and playing better right away. All drum and cymbal pads are mounted to the pre-assembled, height-adjustable, 4-post rack, making set-up a snap. In addition to 200 sounds (fully accessible by external MIDI sources), the DM Lite Module contains a built-in drum coach offering play-along patterns and exercises to improve your skills. Through stereo 1/4" outputs, the DM Lite Kit can be easily connected to an amplifier or sound system to share your performance or an 1/8" headphone output is available for private practice. Plus, there is an 1/8" aux input that allows you to jam out to your favorite tunes from an external audio source. The DM Lite Kit can even connect to your computer via USB for integration with popular software recording programs and virtual instruments.

### INSTANT SET-UP

The DM Lite Kit includes a pre-assembled 4-post rack, with all drum and cymbal pads in place. Simply unfold the arms, position the pads and cymbals, and use the quick-release fittings to set the height to match your size and playing style. No tools required. The wiring snake connects all of the pads, cymbals, and pedals to the DM Lite module with one single, convenient connection. Plug in the DM Lite module, grab the included drumsticks, and start playing!
